

A Practical Guide for Clubs **Returning to Play Tennis** following the COVID-19 Restrictions **Phase 3**

Version 2 Updated 21st August 2020

Republic of Ireland

Phase 3

The guidelines in this document relate to **Phase 3** of Tennis Ireland's Roadmap to Reopening Tennis in the Republic of Ireland.

These measures are part of the third phase of lifting the public health restrictions that were put in place to protect us from COVID-19. They come into effect on top of the measures in phase 2.

These measures will come into effect from June 29th.

Some clubs may wish to remain at a phase of reopening or impose increased restrictions at their own facilities. For example, clubs may wish to keep toilets or changing rooms closed due to difficulties with implementing appropriate protocols. Such clubs are entitled to maintain such restrictions if they so wish.

While people are encouraged to stay local there are no restrictions in relation to travel distance during this phase of reopening.

Update:

- Sporting activities may continue but only Behind Closed Doors without Spectators - See Return to Competition Guidelines. Non-Sporting activities should be limited to 15 people outdoors and 6 people indoors in line with Government advice.
- Catering facilities may remain open in-line with Failte Ireland Guidelines linked later in this document.

Safe every step of the way

Tennis is a Sport for Life. We know playing tennis provides great mental and physical health benefits for our players. We therefore must ensure that Tennis is only played within a safe environment.

This practical guide, prepared by our team in consultation with the Department of Transport Tourism and Sport Return to Sport Expert Group and in line with Government Guidelines, outlines the robust measures Tennis Ireland would like clubs to implement and maintain to help safeguard staff and members during the COVID-19 pandemic. This will allow all of us to play safely.

The measures, which relate to Phase 3 of the Roadmap for Reopening Irish Society and Business, cover each step of the journey from home to the club gate and back home again.

These measures should be in place until further notice.

Our measures and procedures are under constant review and updated as advice from government, health authorities and governing bodies evolves in line with the gradual lifting of social restrictions.

Clubs that feel they are not ready or will have difficulty proceeding to Phase 3 should follow the Phase 2 Guidelines.

Summary of Changes in this Phase

- **Internal Club and Open Competitions can continue to take place, but only Behind Closed Doors and in-line with all appropriate protocols.**
- **Changing Rooms can reopen for players subject to appropriate cleaning protocols being in place**
- **Club restaurant / café / bar / shops can open subject to implementation of appropriate protocols**
- **Both singles play and doubles play is now permitted with people from outside of your household, as long as you remain 2 metres apart as much as possible**
- **Coaches are allowed to work with up to 6 players per court subject to social distancing**
- **Indoor courts can reopen subject to strict protocols**
- **Visitors to clubs are allowed subject to appropriate contact tracing protocols being in place**
- **Non-Sporting activities should be limited to 15 people outdoors and 6 people indoors in-line with government advice.**

1. Club COVID-19 Committee

Tennis Clubs should continue to operate with an assigned COVID-19 Officer and committee responsible for managing issues and queries relating to the COVID-19 pandemic. This committee should continue to:

- Check with their insurers if any amendments to their policies are required to cover COVID19 issues and to consult with them in relation to their risk assessments.
- Ensure they review and that the club can comply with all of the protocols outlined in this phase.
- Ensure that the club and its members adhere to HSE / Public Health advice in all cases.
- Ensure that sufficient HSE COVID-19 information Posters are in place.

- Consider the operation of a court booking system that, if possible, allows for staggered play and perhaps allow 5 minutes between booking slots for players to exit and enter without interaction. If this cannot be done it would be advisable that players understand the need for social distancing while entering and exiting the courts and wait in a designated waiting area.
- Ensure that the club maintains accurate records of who is playing and when. This should include all persons on court and not just the one making the booking. This must be carried out for coaching sessions as well, and in the case that a parent/guardian is present in the club that must also be recorded. This will help with contact tracing if necessary.
- Be responsible for informing all members of the updated COVID-19 guidelines and insist on full cooperation.
- Ensure that the contact details for all members are up to date as this will assist with contact tracing should it be necessary.
- Listen to feedback and contact Tennis Ireland if there are issues not covered under these protocols.

2. Club Access

- In this phase of a club's re-opening, access to the clubhouse is permitted once appropriate cleaning protocols are in place. Toilets and Changing Rooms may be opened for use by players when appropriate cleaning protocols can be put in place.
 - Indoor courts can open in this phase subject to regular cleaning protocols.
 - Clubs can, if they so choose, allow visitors to the club provided the club keeps accurate, preferably electronic records of contact details to assist with contact tracing.
 - Junior Players undertaking casual play should still be supervised by a parent/guardian, however the club does have discretion to remove this requirement for junior players aged 16 years and over if they so choose.

To access the club in this phase of the reopening, a player should:

- Not have been out of the country in the last 14 days.
- Not have been around someone with symptoms of COVID-19 in the last 14 days.
- Not be in a period of self-isolation and/or cocooning under the current Health Policy Rules.
- Not be displaying COVID-19 symptoms.
- Have a pre-reserved playing time.

It is recommended that COVID 19 Training is provided for all staff / volunteers.

3. Booking and Arrival

- Booking a court time in advance is still advisable for all players, including visitors, preferably via a court booking system, website, app, or phone. This will assist should contact tracing be required subsequently.
- All players should ensure their club has their up-to-date contact details (phone and email).
- Both singles play and doubles play is now permitted with people from outside of your household, as long as you remain 2 metres apart as far as possible.
- All players, and not just the player making the booking, should be included in the booking notes. If there is a change to who is playing, it is advisable to make sure the booking is updated.
- Players should continue to travel to the club alone, or only with a member of the same household.
- Players should continue to observe social distancing at all times and resist the temptation to mingle.
- Changing rooms can reopen in this phase, however the club may wish to recommend that Players should arrive in Tennis attire and change footwear at the car or at home
- Players should sanitise their hands using dispensers provided at the entrance to the club and courts or indeed should bring their own.
- Players should head straight to their designated court unless required to check-in
- Players can utilise toilet facilities, however, toilet facilities must be subject to regular cleaning protocols.

4. Check-in and Club Shop Protocol

- Two-metre queue markers should be in place at any single-entry point whether at the clubhouse reception or at the entrance to courts.
- Social distancing should be maintained in the reception area.
- A two-metre exclusion zone should be in place at the service desk and, if possible, a protection screen should be fitted.
- If your club has a shop for essential tennis items that are available to purchase the following protocols should be followed.
 - The implementation of a queue management system with correct distance markings.
 - Staff monitoring of shop to keep numbers in store at an acceptable level.
 - Signage should be placed outside the shop regarding numbers allowed in / policy with children entering / acceptable behavior towards staff, etc.
 - Signage on public responsibility of personal sanitizing and physical distancing.
 - The provision of hand sanitiser at entrance for customers.
 - Setting up screens at checkouts /desks / food counters where possible.
 - Encouraging use of card payment methods including contactless payment.
 - Floor markings to highlight physical distancing requirement i.e. check-out areas.
 - Reduce customer numbers instore when shelf restocking is taking place.
- Food and beverage items can be made available subject to the implementation of appropriate protocols.
- Club vending machines can be reopened but touch points should be cleaned regularly and a hand sanitizing station should be located adjacent to it.
- Contactless card payment should be encouraged.

5. Clubhouse Facilities

- Protocols for cleaning clubhouse facilities accessed by staff, members and visitors should be in place prior to opening and during operation.
- Clubhouse access for members should only be when necessary and be limited to the Club Reception if required to check in.
- Toilets and changing rooms can be opened in this phase but only subject to the club being able to implement sufficient cleaning protocols.
- Restaurants and cafés can reopen during this Phase of reopening, where strict protocols are followed – more information on the protocols and requirements relating to the re-opening of restaurants and cafés can be found [here](#).
- Club bars can also reopen during this Phase of reopening, where strict protocols are followed – more information on the protocols and requirements relating to the reopening of bars can be found [here](#).
- Cleaning & Disinfection Protocols should be developed by the club and implemented.
 - Cleaning which consists of the standard combination of detergent, water and manual scrubbing used for the general or routine cleaning of equipment and surfaces, is sufficient. Such cleaning is necessary before disinfection because if surfaces are not cleaned appropriately, the remaining dirt/contamination renders the disinfectant ineffective.
 - Frequently touched surfaces must be cleaned regularly in line with current HSE and Government guidance. Ensure that door handles, doorknobs and door bars, chairs and armrests, tabletops, light switches, handrails, water taps, elevator buttons, etc. are always visibly clean and cleaned at least twice daily.

6. To the Court

- Both singles play and doubles play is now permitted with people from outside of your household, as long as you remain 2 metres apart as much as possible.
- Clubs have discretion to open indoor courts during this phase subject to regular cleaning of all touch points and establishment of appropriate sanitizing stations.

- Courts that are side by side can be utilised.
- Players should enter the court one at a time.
- Entrances / Gates to courts should remain open, if safe to do so, perhaps tied back to prevent use of handles.
- Entrances to indoor courts, particularly air domes should be cleaned regularly.
- Rubbish bins can be provided but should be cleaned regularly.
- Other court furniture including scoreboards chairs/benches and net winders can be reinstated subject to daily cleaning protocols.
- Any player(s) repeatedly not following the club directives should be asked to leave the club.
- Updated protocols do not allow for spectators. All events should be run Behind Closed Doors. Only players, organizers/staff/volunteers and Parents/Guardians (who are acting in a supervisory role for Junior events) should be on-site.

7. On the Court - Playing

- Physical distancing should continue to be observed throughout the period of play, particularly on change of ends and entering and exiting the court. Players should change ends at opposite sides of the net.
- Players should continue to refrain from handshakes and high fives.
- Equipment such as towels, food, and drink must not be exchanged between players.
- Players should avoid touching their face after handling a ball, racquet, or other equipment.
- Players should, ideally, bring a small bottle of hand sanitiser with them and keep it in their pocket or bag for regular use.
- Players do not now need to use their own clearly marked tennis balls – however, if you choose to use shared balls then extra care must be taken to ensure you do not touch your face during play, and you should clean your hands before play and immediately after finishing (use sanitising gel if required).
- Players should still avoid using their hands to pick up tennis balls from other courts where possible - use your racquet / foot to return them.
- Players should remain apart from other players when taking a break.

8. On the Court – Coaching

- Coaches should prepare and present a Risk Assessment document and get approval to coach from the COVID 19 Committee.
- Coaches can have up to 6 players on each court subject to social distancing measures being in place. Care must be taken with regards to the handling of tennis balls and drills should allow for social distancing to remain.
- For Red Court activities up to 8 players can participate on one court.
- Coaching sessions should be booked and recorded.
- Coaches should brief their students and/or their parents of the protocols that should be followed in advance of the session.
- Coaches should ensure students have registered their contact details with the clubs.
- Exercises that require continuous play are recommended.
- Coaches should continue to limit the use of equipment such as cones, drop lines and targets.
- Do not let players manipulate the practice equipment. Coaches should take charge of picking up the balls.
- Players should use their racquet or their foot to push balls back.
- If the club is implementing a Youth Tennis Camp, guidelines for their safe implementation can be found [here](#).

9. Getting Home Safely

- Once play has finished players have the option of leaving the premises promptly, sanitising their hands on the way out using a courtside dispenser or visiting the club restaurant and bar if available.
- Clubs should make provision for thoroughly cleaning accessible areas and ensuring that all “touch areas” are cleaned thoroughly each day.
- If a player becomes unwell after playing, they should first contact their GP/HSE and then inform their club. The club should contact the HSE and follow the advice provided to them on the next steps.

10. Competition

Internal club tournaments, Inter Club competitions and Open Tournaments are allowed in this phase of reopening.

More information on the safe operation of competitions can be found [HERE](#) and you can contact competitions@tennisireland.ie with any questions you may have.
